

CAT PARKER COMMITTEE MEMBER

Cat Parker is an accomplished business leader and board member with extensive global experience spanning the USA, Europe and Asia Pacific markets. With over two decades in executive roles across Fortune 500, NASDAQ, ASX, and privately listed companies, she has led large (1,000+), multidisciplinary teams and overseen complex business transformations.

Recognised for her expertise in business strategy, digital innovation, operational leadership, and strategic growth, Cat has built a career building high-performance teams and delivering sustainable business solutions. She has held C-suite and board appointments across retail, eCommerce, technology, and supply chain sectors, with a strong focus on modernising organisations to meet the evolving needs of their customers and communities.

Cat's connection to the RSL is deeply personal. With a grandfather who served in Papua New Guinea and a great-grandfather who made the ultimate sacrifice in Belgium during WWI, she has always felt a profound responsibility to honour their legacy. She also has cousins who have served in the Australian Defence Force, two of whom have proudly represented Australia in netball. However, it wasn't until joining the Camberwell Pompey Elliott RSL that she gained a deeper understanding of her own heritage and her family's enduring contribution to Australia's military history—an experience that has left a lasting impression.

Committed to ensuring the RSL remains a vital, modern, and inclusive institution, Cat is passionate about driving its continued evolution. She believes in strengthening support for veterans and their families across key areas, including welfare, social engagement, and commemorative events, while also ensuring the organisation remains a pillar of community connection.

Beyond her corporate career, Cat holds a Bachelor of Commerce, an MBA from Kellogg Business School (USA), and an Executive Management certification from Harvard University. She is also a qualified Chartered Accountant (CA).

A committed philanthropist, she has volunteered with The Gates Foundation's Bridges to Understanding program, supporting digital education initiatives in Africa, and spent nearly a decade advocating for responsible pet adoption and welfare with the ASPCA in New York.
